

Emily Nail

CANDIDATE STATEMENT

I am interested in serving on the board for NCBA because I am passionate about cross sector cooperative collaboration, I feel driven to provide an insight to those that are looking to increase the collaboration and I feel I can provide assistance in this arena. I also have established a CCNC DEI Committee over the last two years and along with this group, we are providing outstanding take home trainings for my members. This is also something that I can bring knowledge and light to. I represent the cooperative association members and can connect with those that are also in the association industries. I look forward to assisting NCBA in reaching their goals and providing value to their members.
